PROFESSIONAL SUMMARY

Results-oriented Software Engineer with 6 years of experience, specializing in .NET and web technologies. Proven track record in developing and maintaining complex ERP systems within the manufacturing industry. Expert in digitalizing manual business processes and optimizing production workflows. Proficient in .NET Core, React, and SQL Server, with a strong background in multi-subsidiary system synchronization and legacy migration.

CORE SKILLS

Languages & Frameworks: .NET Core, C#, ASP.NET MVC, React, PHP, ASP Classic, Magic XPA.

Web Technologies: JavaScript (jQuery, Ajax), HTML5, CSS3, Telerik Kendo UI.

Databases: MS SQL Server (SSIS, Stored Procedures, Functions, SQL Job), Oracle, MySQL.

Tools: Git, GitHub, Visual Studio, VS Code, IIS 7/8, Windows Server.

WORK EXPERIENCE

PT. Indopoly Swakarsa Industry | *Business Application Developer*

Jan 2025 – Feb 2026

- **Automated Material Mixing & Inventory Tracking System:** Designed and developed a comprehensive system to automate material consumption tracking for production machines.
- **Implemented Mixing Planning for ratio management and Mixing Usage for real-time automated inventory deduction from the shop floor, including Silo Transfer and Return modules.**
- **Created a Transaction Dashboard** providing real-time visibility of planning, execution, and stock returns to improve operational oversight.
- **IT Asset Request Digitalization:** Transformed a manual paper-based procurement process into a digital workflow with multi-level approvals and automated Purchase Request generation.
- **ERP Access Management:** Developed a self-service portal for ERP menu requests with automated provisioning upon final digital approval.
- **System Modernization:** Successfully migrated legacy modules from ASP.NET to React and RESTful APIs to enhance performance and user experience.

PT. Tower Bersama Group (via PT. Kamoro Maxima Integra) | *Software Engineer*

Jan 2024 – Jan 2025

- **Developed web-based applications** using .NET Core, ASP.NET MVC, and SQL Server.
- **Vendor Contract Application:** Developed a system to streamline the management of vendor contract documents for the Vendor Management Division.
- **Continuous Improvement Application:** Created a platform for employees to register and track implementable work ideas.

- Office Assistant Application: Built a monitoring tool for the General Affairs Division to track daily facility maintenance tasks.

PT. Infinite Creative Teknologi | .NET Developer

Oct 2022 – Jan 2024

- Developed a Retail Purchasing Application facilitating automated ordering from stores to the central factory.
- Coordinated with System Analysts to define technical requirements and performed rigorous System Integration Testing.

PT. Indocyber Global Teknologi | Magic Developer

Mar 2020 – Apr 2022

At PT Indocyber Global Teknologi, I developed mobile and desktop-based recruitment applications for use in internal companies using Magic XPA 3.3 and MySQL database. At PT Indocyber Global Teknologi I was also placed in several client companies.

PT. Astra Otoparts (via PT. Indocyber Global Teknologi) | Magic Developer

Mar 2020 – Apr 2022

- Multi-Subsidiary ERP Management: Managed and maintained a centralized ERP system serving 4 Astra subsidiaries, ensuring seamless synchronization and operational stability.
- System Integration: Conducted SIT and UAT for major application changes and provided critical Go-Live and operational support.
- Performed legacy migration of ERP applications from Magic 8 to Magic XPA technology.

PT. Astra Credit Company (via PT. Indocyber Global Teknologi) | Magic Developer

Aug 2019 – Feb 2020

- Developed a desktop-based Customer Registration Application using Magic Unipass and Oracle database to streamline data input.
